A SCIENCE/TECHNICAL/MANAGEMENT

A.1 SUBSECTION

A.1.1 Subsubsection

How it works. The Proposal main title, short title, call number and authors can be edited in the *main.tex* file. Each main sections of the proposal (e.g. *SCIENCE/TECHNICAL/MANAGEMENT*, *BUDGET JUSTIFICATION*) have their own separate *.tex file. Those sections can be included in the main document by un-/commenting their related command lines in the *main.tex* file. Moving those lines around also allow to change the relative location of the sections in the final document.

Citations. References are listed in the *references.bib* file in bibtex format and can be cited within squared brackets [e.g. [Campbell and Ulrichs, 1969](#)] or along the flow of the text like [Campbell and Ulrichs \[1969\]](#).

Figures. Figures can be placed across the width of the page (Fig. 2), or wrapped within the text with the figure on the right side of the page (Fig. 1). Play with the *vspace* function for and after the figure to align it vertically.
